A player may, having first obtained the written approval of the NZRL appointed Tournament Organiser or his nominee, write a column for publication in any newspaper provided that such approval at any time will not be unreasonably withheld, and such approval will be deemed to continue until withdrawn by the Tournament Organiser
7. No player or team official may, at any time, make any comment in any publication whether written, televised or broadcast which is detrimental to the interests, welfare, or image of the NZRL or Rugby League in general.
8. Players and officials are prohibited from placing bets, and benefiting financially, from bets placed by others, on games in which they are participating.
9. Where the NZRL receives a report of an alleged breach of this Code of Behaviour, the player or team official will be summoned to appear before a hearing of the NZRL/District League Judicial Committee, who may:
10. If the player is found guilty of a breach of this code after due investigation, fine, and/or disqualify or suspend the player from playing, or otherwise deal with the player concerned.

11. If the team official is found guilty of a breach of this code after due investigation, fine and/or disqualify or suspend the team official from participating in the game of Rugby League, or otherwise deal with the team official concerned.

### 3. CONCUSSION POLICY/GREEN CARD PROTOCOLS

For the safeguarding of players and those involved in NZRL run matches we will be implementing a **GREEN CARD** (return to play) system to include the National Premiership and NZRL Championship Competitions.

If a Player experiences or exhibits any one or more of the following symptoms or signs, the Player must be immediately taken from the field in a medically appropriate way to be assessed by the team doctor and/or dedicated medical personnel.

- a. Clinical features including abnormal neurological signs of a serious or structural head and/or neck injury requiring emergency management and hospital transfer
- b. Loss of consciousness or suspected loss of consciousness
- c. No protective action in fall to ground (tonic or floppy; or cervical hypotonia)
- d. Impact seizure or possible impact seizure e.g., tonic clonic movements or tonic posturing
- e. Confusion or disorientation
- f. Memory impairment (e.g., fails the Maddocks questions)
- g. Motor incoordination (e.g., Balance disturbance or possible balance disturbance, clumsiness with upper limbs or in getting up); (e.g., ataxia)
- h. Player reports significant, new, or progressive concussion symptoms
- i. Dazed, blank/vacant stare or not their normal self (e.g., no facial expression, no apparent emotion in response to the environment, reduced conscious state (GCS<15), not responding appropriately to those around him including other Players, referees, or trainers/medical staff)
- j. Behavioural change atypical of the Player
- k. Slow to stand following a possible head injury (1st priority is to ensure that there is no neck injury present)
- l. Loss of responsiveness (Player lying motionless for 2-3 seconds or until support staff arrives)
- m. Suspected facial fracture.

In addition, if the team doctor, physiotherapist or assigned medical personnel forms a clinical impression that the Player appears to display other signs that a head injury may have occurred following trauma/impact, the Player must immediately be taken from the field in a medically appropriate way to be assessed by the dedicated medical personnel.

**Note:** 'Balance disturbance' is defined as when a Player is unable to stand steadily unassisted or walk normally and steadily without support in the context of a possible head injury.

1. If a Player is required to leave the field of play because of the identification of one or more of these features to complete a Head Injury Assessment (HIA), this interchange will not be included for the purposes of calculating the number of interchanges listed within the Competition Rules under Interchange Protocols.
2. The period in which the HIA is to take place is to be a period of 15 minutes. The period is to begin from the time at which the Player is in the care of the dedicated medical personnel (this time cannot be delayed for any other non-legitimate reason). If the Player has been cleared by the dedicated medical personnel during the HIA, the Player will be provided with a **GREEN CARD** (return to play) and must report immediately to the interchange

official prior to or at the completion of the 15-minute HIA to return to the field of play but can only return at the completion of the 15-minute period and provided they have an official **GREEN CARD**.

3. The 15-minute period prior will not be assessed against the official match time or clock. The timing of the HIA period will be monitored by the match manager if a designated HIA official is not on duty.
4. If a Player is required to be assessed for a period longer than the specified HIA period, that Player would then be adjudicated as an interchange for the purposes of calculating the number of interchanges listed. The participating team will be required to hand over their next interchange card available in sequential order immediately to the interchange official.
5. Any Player who is required to leave the field of play for a second HIA (including if one or both incidents are the result of the incident being placed on report or a send-off offence) in the same match, will not be allowed to return to play in that Match.
6. In the event of an on-field incident which has required two Players from the same team to be taken from the field of play at the same time for a HIA, the team doctor or dedicated medical personnel may request from the HIA interchange official an additional 10-minute period for one (1) of the HIA Players to complete the necessary assessment. The team doctor or dedicated medical personnel must nominate which Player will be assessed first.
7. In the event of an on-field incident in the first 10 minutes during a HIA for one Player requiring a second Player from the same team to be removed from the field of play for a HIA, the team doctor or dedicated medical personnel may request from the HIA interchange official an additional 10-minute period for the second HIA Player to complete the necessary assessment.
8. If the Player has suffered a head injury in a tackle or incident that was a consequence of foul play which resulted in a send-off, sin bin or the player being penalised, this interchange will take place in accordance with Interchange Protocols which refers to interchange in the event of foul-play. There will be no maximum time limit associated with the Head Injury Assessment, but that Player cannot return for a minimum of 15 minutes if deemed not to have suffered a concussion.
9. Once a Player has been substituted as per normal interchange rules, a HIA cannot be initiated from the side-line.
10. If a HIA takes place in the 15-minute period prior to half time, the HIA period will be deemed to have been completed at the end of the half time, unless 15 minutes has not elapsed. The team must indicate to the HIA interchange official or the match manager if a designated HIA official is not on duty immediately at the completion of half-time whether the Player is to return to the field of play.
11. If a participating team has used all its allocated interchanges whilst a Player is completing a HIA, and if that Player is unable to return to the field of play at the completion of the HIA, the participating team but immediately remove a Player from the field of play and complete the match with one (1) less Player.
12. At the completion of the match, the match manager is to complete, as part of their report to a Competition Organiser, details of any Player who has completed a HIA during the match. Similarly, a team's medical staff must include details of the HIA in their post-match medical report.12.
13. Following any such match where a player has been deemed unable to return to the field due to incurring a concussion, the return to play process (including stand down periods) will apply as per the NZRL Concussion / Head Injury Policy. More information can be found via the NZRL website: <https://nzrl.co.nz/wp-content/uploads/2020/05/NZRL-Concussion-Policy-2018-1>

14. Participating teams must only use a HIA for the reasons set out within this section of the Competition Rules. Any team which is proven to have used a HIA for any reason other than that detailed within these protocols will be deemed to have gained an unfair tactical advantage in the Match and be subject to penalty.

#### 4. MOUTHGUARD POLICY

It is compulsory for all players playing in sanctioned Tournament by the NZRL and its members to wear a protective mouthguard.

- The **No Mouthguard, No Game Policy** is to be firmly enforced.
- Players are not permitted to share mouth guards.

##### Operational Guidelines

- Referees and/or touch judges will check that all players (including reserves) have a mouthguard prior to the start of the game.
- During a match, any player found not to have a mouthguard in the mouth and not having a mouthguard in their possession, (due to having it dislodged because of a tackle) will be made to leave the field.
- On obtaining a replacement mouthguard, the player may re-enter the field of play after reporting to a touch judge.
- In the event of the player being unable to obtain a replacement mouthguard they may take no further part in the game but may be substituted, with that substitute counting as an interchange.
- During a match, any player found not to have a mouthguard in their mouth, but to have one in their possession (in their sock or pocket etc.) will be penalised and sin binned for 5 minutes.
- Referees are to use common sense in enforcing this policy regarding players approaching a scrum with a mouthguard in their hand and other such incidents, where there is a break in play.

##### Mouthguard Exemption Guidelines

- The player in question must provide a medical certificate from a dentist clearly stating why a mouthguard cannot be worn by the player.
- The player must submit the dentist medical certificate with a portrait photo to the NZRL prior to taking the field.
- The NZRL reserves the right to make the final decision on issuing a mouthguard exemption.

#### 5. ANTI-DOPING POLICY

NZRL aims to eliminate the use of prohibited substances and prohibited methods from Rugby League by adoption of the Sports Anti-Doping rules and WADA code. The WADA code can be sourced from [www.drugfreesport.org.nz](http://www.drugfreesport.org.nz) and education/resources from <http://drugfreesport.org.nz/what-we-do/education/>

NZRL will educate and inform athletes and athlete support personnel about issues concerning doping in sport, including by:

- a. Circulating or providing athletes and athlete support personnel with information materials and resources on doping in sport; and
- b. Co-operating with the NZSDA, WADA and other relevant Anti-Doping Organisations to implement drug education and information programs for athletes and athlete support personnel.

This policy applies to:

- All Athletes who are within the jurisdiction of the Constitution, Rules and Regulations of NZRL; and
- All athletes support personnel within the jurisdiction of the Constitution, Rules and Regulations of NZRL; and
- All other people who have acknowledged in writing that they are bound by this policy or who are otherwise deemed to be bound.

## 6. DRUG TESTING

Drug testing may be carried out on a random basis throughout the duration of the competition by Drug Free Sport NZ. Prior to the commencement of the competition the Competition Organiser will supply DFSNZ with a copy of the confirmed competition draw, player's registration details plus details of each team's training times and venues.

## 7. SMOKEFREE PHILOSOPHY

NZRL is committed to removing smoking from our sport by establishing a Smokefree policy for people to respect and enjoy.

We are Smokefree because: Participating in the game of Rugby League and being Smokefree is a positive health choice for each of us to make.

- It helps us feel good socially, emotionally, and physically, especially during a game of Rugby League.
- It supports our team-mates and friends who want to give up smoking.
- It supports our friends who do not smoke in the club and on the sideline as it provides healthy environments for all to enjoy.
- Having role models (players, coaches, and administrators) who are Smokefree encourages our youth to choose not to smoke.
- It protects our youth from the harmful effects of people smoking around them at the game and especially in the clubrooms.
- Rugby League is all about good health and active lifestyles and smoking has no part to play.

### **Please respect our Smokefree Philosophy.**

If you choose to smoke, please do so outside our Smokefree areas. Remind smokers not to light up in our Smokefree areas . . . Be supportive – tobacco addiction is a powerful thing.
